DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 17, line 3, the phrase "presence of absence" is changed to read ---presence or absence--- to correct a typographic error.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance:
3. Claims 1-19 are allowable over the prior art. The main reason for the allowance of claims 1-19 is that the prior art teaches the use of chlorine as a chemical additive to create an adduct ion of a target chemical substance under test as pointed out in the previous Office action.
4. The applicant correctly points out at page 10 of the remarks submitted on October 25, 2005 that chlorine is not an organic molecule, organic acid, or organic acid salt, and therefore the prior art does not teach or suggest the required limitation of independent claims 1, 8-12, 16-17, and 19. Note the remarks at page 11, paragraphs 2-3.

5. Claims 1, 8-12, 16-17, and 19 therefore are distinguished over the prior art for the reasons above. Claims 2-7, 13-15, and 18 are allowable by virtue of their dependency.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
